## Respite Programs

Our Respite Program offers the personal caregiver a unique opportunity to take some time, either for a vacation or to simply renew their own health, while still ensuring that their loved one is monitored in a safe and caring environment.

Respite services can benefit those being cared for by offering them an alternative to their routine, allowing them to make new friends and participate in activities that will both educate and challenge their abilities.

### Services

- Housekeeping
- Laundry
- 24-hour Caregiving
- 3 Meals Daily
