Isometric Exercise

This activity works your:

Hippocampus (Temporal Lobe

Sitting Kicks:

Sit in a sturdy chair. Lift your foot, straightening your knee as much as possible. Try to keep your knees level, as if you were holding a tray on your lap. Hold for 5 seconds. Slowly lower your leg down and relax. Return to the starting position and repeat with opposite leg. Do each leg 3 times.

Biceps Curl:

With your right elbow at your side, use your left hand to provide resistance. Try to move the right forearm up, resisting the movement with your left hand. Hold for 10 seconds. Change arms and follow the instructions for your left arm.

Do each arm 3 times.

15.	A quarter note	O.	Bach			
16.	"A German Requiem" composer	P.	Piano			
17.	"Amadeus" subject	Q.	Violin			
18.	Above true or normal pitch	R.	Flute			

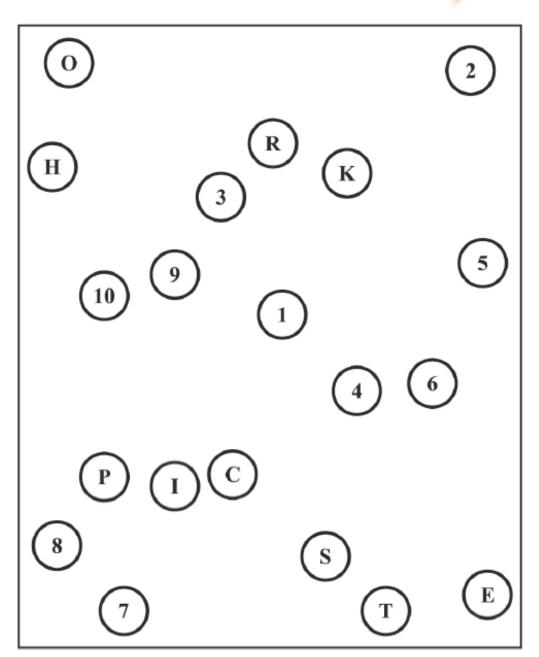

Trail Making

This activity works your:

Frontal Lobe

Connect the circles in ascending order. Begin with number 1 and alternate between numbers and letters to spell ROCKET SHIP. For example, connect 1–R–2–O–3–C, etc. Keep your pencil on the paper and work as quickly as you can.

Trail Making

This activity works your:

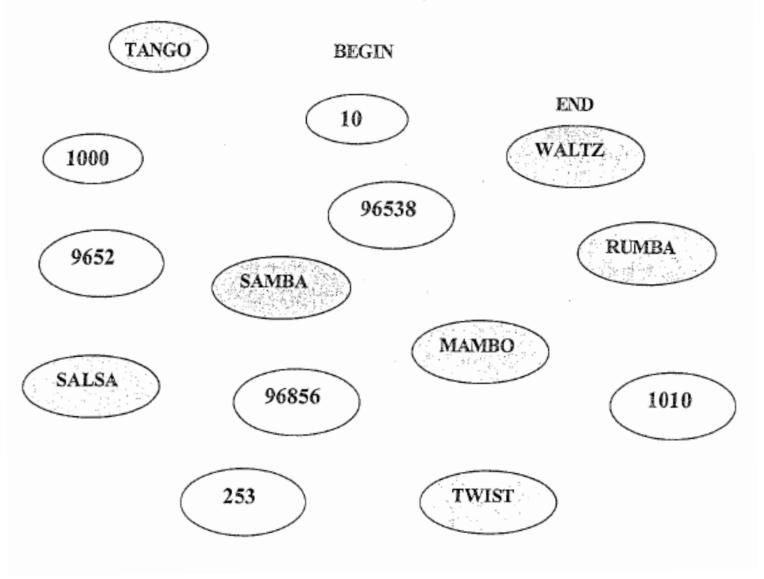

Frontal Lobe

This exercise trains your mental flexibility and your strategy capacities,

Look at the words and numbers below. Your job is to link the following numbers and words. First sort the words in alphabetical order. Then sort the numbers from smaller to bigger. Start with the number marked "Begin" and end with the word marked "End." Draw a line from number to word, until they're all linked.

Example: spring; 44; summer; 563; winter; 8152
